# DESIGNED FOR USE ON KMC IMPLEMENTS & OTHERS WITH 4 x 4, 7 x 4, AND 7 x 7 TOOLBARS

## 550-LB. Hopper Capacity:

Dual spout 550 lb. capacity hoppers molded from plastic/fiberglass. Spouts are cast iron for corrosion resistance. "Y"

dividers available for splitting flow of fertilizer from each spout.

## Precise, Accurate Calibration:

Output (from 75 lbs. to over 1,100 lbs. per acre depending on row spacing) is adjusted by loosening setscrews and moving special taper-design cast iron augers in or out of hopper boxes. Stamped reference numbers on augers serve as visual aid in selecting desired rates.

## Two Drive Options:

### Ground Drive:

- Features 23" ribbed tractor-type tire for positive traction.
- No. 40 roller chain is plated to resist corrosion.
- Down pressure spring adjustment.

### Hydraulic Motor:

- Variable speed control to assist in calibration.
- For open or closed hydraulic systems.

## Various Application Accessories:

### Broadcast (Sidedress)

### Deep Shank

### Rolling Disc

### Sizes For All Needs:

2, 4, 6, 8, and 12 row sizes available for side and narrow row spacings. Suitable for use on all KMC implements and many competitive implements.

### Quality You Can Depend On:

Hoppers and drive components supported securely on a 2 1/2" sq. auxiliary toolbar clamped to main toolbar of implement with stout, heavyduty brackets designed for 4x4, 7x4, and 7x7 toolbars.
